

Welcome Back to Campus

At-Home Procedures for Students Attending School Each Day

In order to ensure the safest possible environment for staff and students, we ask that you do the following each day before sending or transporting your child(ren) to school:

Check their temperature

If it is higher than 100.0F, please keep your child (ren) at home until their temperature has returned to normal without the aid of medications for 24 hours. If the fever is accompanied by other symptoms, the time at home may be longer, as noted below.

Check for any illness symptoms

Ask your child(ren) if they have any of the following symptoms. If they do, please keep your child(ren) at home until they are symptom free for 10 days since the symptoms first appeared:

- Have chills, a cough, or trouble breathing
- Headache or have a runny or stuffy nose
- Sore throat
- Feel “achy”
- Are sick to their stomach, have “thrown up”, or have diarrhea
- Have a new loss of taste or smell
- Been around someone with COVID-19

Give them, or ensure they have, a facemask to wear

Unless your child(ren) has/have a disability or medical condition that prevents them from wearing a facial covering; facial coverings are expected, encouraged, or not expected to be worn by students when:

USE EXPECTED

- Entering, riding on, and exiting a school bus or van
- Waiting outside the campus for AM arrival
- Entering the campus and transitioning to their learning space
- Waiting for and having temperature and symptom check before entering their learning space
- For grades 3 – 8, in their learning space regardless of distance from others

- Transitioning from their learning space to other on-campus locations, including to the Health Clerk office
- In cafeteria line
- In and waiting for the restroom
- In the COVID-19 symptoms isolation ward waiting for parent pickup
- Leaving their learning space to exit the campus for PM dismissal

USE ENCOURAGED

- For Grades TK-2, in their classroom/learning space

REMOVAL EXPECTED

- Eating a meal or snack
- On the playground engaging in physical activities

Remind them to wash their hands with soap and water for 20 seconds, or use hand sanitizer, when:

- HOME: Arriving At and Leaving Home
- SCHOOL: Arriving At and Leaving School Site
- RESTROOM: Before and After Using Restroom
- TISSUE: After Blowing Nose with Clean Tissue and Throwing it Away
- EAT: Before and After Eating Food
- PLAY: Before and After Playing Outside
- EVERY 60 MINUTES: Each 60 minute increment while continually in classroom or learning space

Remind them to not touch their mouth, nose, or eyes without a clean tissue.

Give them filled disposable, or wide-mouthed refillable, water bottle(s) for use at school
