

## Book Collage

Think about all the characters, places, and events that make your favorite book such an interesting read. You can create a collage to illustrate this book, using all sorts of fun materials.

First, gather together a large piece of sturdy paper, scissors, and a bottle of glue. Then, locate one or more of the following: fabric scraps, glitter, wrapping paper, buttons, beads, sequins, felt, postage stamps, stickers, old magazines and newspapers, feathers, dried flowers and leaves, ribbon, string, coins, package labels, press-on letters and numbers.

Now, create a vivid and exciting collage to illustrate your book. Think about the characters, settings, and symbols that make your book unique. Cut images out of magazines, or create your own images to depict your particular book. Jumble these images together in crazy shapes and designs.

Your collage should be fun and unusual. When you are finished with yours, display it proudly and explain its significance to friends, classmates, and family members.
