

Music Lessons

Music study enhances teamwork skills and discipline, provides children with a means of self-expression, helps develop language

and reasoning, creates better self confidence and a sense of achievement. Students who have experience with music performance score higher on the SAT. Staump Music School classes will nurture the creativity and individualism of every student as they learn to strengthen and accept their artistic identity.

Music School

Beginning Guitar Class is an introductory course designed for students with little or no experience, and will prepare students for our Intermediate Guitar Class. This class focuses on popular styles of guitar playing with an emphasis on technique, music reading, chord symbols, scales, and ensemble performance.

Intermediate Guitar Class is recommended for students with previous experience or who have successfully passed our beginning class. At the end of this 10 week course, students will be able to play through chord charts, read music, use scales for improvisation, perform both a solo piece as well as an ensemble piece, and will be prepared for private lessons.

Private Lessons \$25 per half hour

The ukulele is a great instrument for students who have no musical experience and is easier to handle than a guitar. This class is also a fun addition for any guitar player. Ukulele class has an emphasis on technique, music reading, chord symbols, scales, and ensemble performance.

Beginning Piano Class is an introductory group class that will teach students note reading, scales, music theory, and piano technique. This class will prepare students for our intermediate piano class. Students will learn how to play written sheet music and gain an understanding of musical concepts. This class is great for beginning piano students as well as students studying other instruments.

Intermediate piano class is recommended for students with previous experience or who have successfully passed our beginning class. At the end of this 10 week course, students will be able to play chords, read music, use scales for improvisation, perform both a solo piece as well as an ensemble piece, and will be prepared for private lessons.

Drum class is a percussion performance class that focuses on rhythm, note reading, drum rudiments, technique, and basic drumming patterns. Students will learn how to read rhythmic music notation as well as gain an understanding of different drumming techniques. No prior experience needed to join this class.

Vocal Fundamentals is a class that focuses on proper vocal technique and performance. Students will learn vocal warm ups, diaphragmatic breathing, sight singing, music reading, using the chest, middle, and head voices, and performing with a live band. At the conclusion of this 10 week course, students will have a solo performance.

Choir will teach students the fundamentals of music, and how to use this free vocal instrument we are all given. Students will gain skills in self-expression, organization, self-discipline, logical thinking, critical thinking, and follow-through. They will gain a sense of community, and responsibility. This ensemble strengthens individual ability and teaches students how to sing as part of a choir. Students will obtain a basic knowledge of choral technique, and will develop harmonization and vocal skills. They will gain an appreciation and knowledge of classical technique and theory, while also applying these techniques to popular music.
