Public Communication

Review and/or Revise Norms

- One person speaks at a time
- Listen
- Respect time
- Presume positive intent
- All opinions are welcome
- Active involvement by all
- Commitment to the process
- Diverse perspectives
- Use technology as much as possible

Desired State for 2017 (from Strategic Planning Committee Work 2011-2012)

The Santee Technology Plan will reflect the district's commitment to a sustainable, equitable program that provides student access to relevant, emerging technologies that enhance the educational experience.

Year 1 Action Plan: What is actionable over the next 7 meetings?

Probing questions:

- *How do we increase and maintain purposeful integration of technology?*
- *How do we use technology to advance student learning?*
- *Have we noticed an increase in student performance and/or motivation as a result of this technology use? If so, how?*
- *What have been your biggest ed-tech challenges and why? How have you overcome these?*
- *How do we use technology to streamline school administration and aid in decision-making? How have we benefited as a result?*
- *What ed-tech projects are we most proud of and why?*
- *What have been our biggest ed-tech challenges and why? How have we overcome these challenges?*
- *How does curriculum change with an increased integration of technology and 21st Century Skills?*
- *What 21st Century Skills should be incorporated into our curriculum?*
- *How do we develop, communicate, and sustain BYOD?*
- *How do we provide equitable access to current technologies at school and home?*

Next Meeting: December 13, 6pm, Rio Seco School
